OSCLASS LATCH PLUGIN USER MANUAL

DANIEL ESTEBAN

CONTENTS

ABSTRACT

User manual for Osclass Latch plugin that allows you to use Latch services in your Osclass installation for both, regular users and administratos.

1 WHAT IS LATCH?

Latch is a service that lets you add an extra level of security to your online services. To help prevent any unauthorized use, Latch gives you the control to switch off your accounts with a single tap when you're not using them.
Security and Control with a single tap
